**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

*These figures on measures reported included all placed on calendar or acted on by Senate even if there was no accompanying report. A total of 57 reports has been filed in the Senate; a total of 86 has been filed in the House.

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

Mutual Security: Senate considered S. 1451, mutual security program for fiscal 1960, taking the following actions on committee substitute therefor:

Adopted: Johnson (Texas) amendment (motion to reconsider tabled), providing for establishment of and

authorizing appropriations for a Center for Cultural and Technical Interchange between the East and West in Hawaii (carrying out provisions of his bill S. 2135, which was ordered favorably reported on June 30); and

Point of order overruled by Presiding Officer (Moss) when Senator Case (South Dakota) made such point against language in committee substitute on method of capitalization of International Development Fund as constituting appropriations in a legislative bill. Yeas and nays were ordered on Case appeal from this ruling but Senate then rejected by 42 yeas to 48 nays Aiken motion to table this appeal. By unanimous consent it was agreed that on July 2, following morning business, there shall be 2 hours debate on the question of this appeal, equally divided, and after vote thereon, the bill will be open for further amendment. Senator Dirksen has offered an amendment to the language against which the point of order was lodged, which amendment provides that instead of advancing from the Treasury to the Fund \$5 billion over a 5-year period, there shall be \$1.5 billion in authorizations over a 3-year period.

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

WAR CLAIMS ACT AMENDMENT

Committee on Interstate and Foreign Commerce: Subcommittee on Commerce and Finance ordered favorably reported to the full committee H.R. 2485, with an amendment in the nature of a substitute. The principle differences between the subcommittee amendment and the bill as originally introduced at the request of the administration are as follows:

1. The subcommittee amendment provides for the payment of certain European and Pacific Theater war claims out of the War Claims Fund. The bill as originally introduced would have authorized an appropriation of \$10 million for the payment of war claims arising in the Pacific Theater and would have paid the European war claims only out of the War Claims Fund.

2. The categories of war claims authorized are the same as the original bill except that the category authorizing compensation for reparation removals following World War II was deleted.

3. The amendment would also authorize payment of compensation for property losses in the Philippines suffered by persons who received no compensation for the same losses under earlier legislation.

The subcommittee amendment also relates to terms of office and bipartisan appointment of the members of the Foreign Claims Settlement Commission.

The subcommittee also ordered favorably reported to the full committee the following bills:

H.R. 6392, providing detention, disability, and death benefits for certain Guamanians killed or captured by the Japanese at Wake Island during World War II; and

H.R. 6462, to provide a lump-sum payment of \$500,000 out of the War Claims Fund to successor organizations on account of heirless property of victims of Nazi persecution vested by the Alien Property Custodian.

*These figures on measures reported included all placed on calendar or acted on by Senate even if there was no accompanying report. A total of 854 reports has been filed in the Senate; a total of 1,102 has been filed in the House.

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

¹ Subsequent to adjournment two additional reports were filed by House committees making this figure 55 and the total of reports filed in the House 1,192; also, subsequent to adjournment, four additional reports were filed by Senate committees making this figure 38 and the total of reports filed in the Senate 1,016.

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

INDEX

This index is keyed to the DIGEST as published with the DAILY CONGRESSIONAL RECORD; the page references below are listed accordingly, as D5, D6, etc.

The bill numbers of proposed legislation are affixed to the subject references so that the subject matter of each measure will be readily available. The breakdown under each subject divides the action on the proposals according to: Communications from the President, hearings or actions by House or Senate committee or joint or conference committee, consideration or action by House or Senate Chamber on the measures, and the public law number when the bill or resolution has been enacted.

The use of an index so devised serves a twofold purpose: Gives all references to such legislation in the DIGEST as well as accounts for the status and history of each bill or resolution.
